

Unlock recovery opportunities even after the claim is closed

Digital Asset Finder

The recovery window you're missing

Your comprehensive claim investigation is complete. The payout is issued. Case closed—or is it?

Reclaim what seemed lost forever

Digital Asset Finder, powered by Legentic and seamlessly integrated with ClaimSearch®, extends your recovery reach beyond traditional methods.

This automated solution continuously monitors digital channels to help you locate missing assets, whether it's a stolen vehicle or expensive equipment, making recovery possible after you've paid the claim.

Turn missed opportunities into recovered assets

Digital Asset Finder continuously scans online marketplaces, social platforms, and forums for specific asset identifiers (VINs, serial numbers, license plates) to track your stolen vehicles and high-value equipment. When a match is detected, your claims and subrogation teams receive instant automated alerts with historical and real-time digital asset activity, viewable directly on a dynamic dashboard.

Benefits that directly impact your bottom line:

Uncover post-claim activity

that signals new asset recovery opportunities others miss

Strengthen subrogation efforts

and facilitate smoother collaboration with law enforcement

Reduce net loss by enabling recovery of high-value assets after payout

Gain competitive advantage

with insights unavailable through traditional recovery methods

→ Zero IT lift, maximum impact

Digital Asset Finder fits effortlessly into your existing ClaimSearch® workflow —no new platforms, no IT integration required, no workflow disruptions.

→ Ready to recover what others consider lost?

Discover how Digital Asset Finder can help you turn missed recovery opportunities into real results.

ClaimSeach Ecosystem Program

Legentic serves as a strategic contributor to the ClaimSearch Ecosystem Program—an advanced network designed to provide seamless internal and external solutions with precision and efficiency. Utilizing Verisk's reliable data-sharing platform, customers can instantly access a network of vetted service providers, fostering streamlined innovation and informed decision-making.
